What does PFISR provide?

- **PFISR** aims to provide Syrian refugees with the fundamental and necessary ICT skills that paves the way for them to
  - pursue ICT-related degrees in higher education (HE)
  - receive internationally accredited professional certificates
  - establish their own small businesses in ICT field
- Over the period of 18 months
  - 9 Courses (45 hours each)
    - Targeting 180 direct beneficiaries
  - 9 ToT intensive courses
    - Targeting 90 direct beneficiaries
  - On Saturdays to allow wider range of students to attend

Listen to what our students said about our program and our courses.

" This was one of the best network classes that I have ever attended. It has enriched me with the knowledge necessary to improve my career."

Mohammad Muhaisen
Computer Network Course

"Web development course is one of the most important courses any IT student should take. It helps you to build your own websites and better undertand how the web works. "

Shadi Akil
Web Development Course

"This course [Computer Maintenace] has allowed me to open, modify, and maintain my PC with full confidence. "

Mohammad Alzoubi
Computer Maintenance Course
